Objective:
Experienced Database Engineer seeking to leverage expertise in designing, implementing, and optimizing databases to contribute effectively to a dynamic tech team.

Education:
Bachelor of Science in Computer Science
University Name, City, State
Expected Graduation: May 2025

Relevant Courses:
- Database Systems
- Data Structures and Algorithms
- SQL Fundamentals
- Data Modeling and Design

Skills:
- Database Management: MySQL, PostgreSQL, MongoDB
- Database Design: ER Diagrams, Schema Design
- Query Optimization
- Data Warehousing
- Database Administration: Backup and Recovery, Performance Tuning
- Programming Languages: SQL, Python, Java

Projects:
1. E-commerce Database System (Python, MySQL)
   - Designed and implemented a scalable database schema for an e-commerce platform.
   - Optimized queries to improve performance by 30%.

2. Hospital Management System (Java, PostgreSQL)
   - Developed a relational database model for patient records and appointments.
   - Implemented stored procedures for data validation and integrity.

Experience:
Software Development Intern
Company Name, City, State | Summer 2023
- Assisted in database design and development for a new customer management system.
- Conducted performance testing and database tuning under the supervision of senior engineers.

Technical Skills:
- Proficient in SQL and relational database management systems (RDBMS)
- Familiarity with NoSQL databases like MongoDB
- Strong problem-solving and analytical skills
- Ability to work collaboratively in a team environment

Certifications:
- Oracle Certified Professional, MySQL Database Administrator

Languages:
- English (Fluent), Spanish (Basic)
